

# Firmapress Organic

Firmapress Organic is a fully organic binder that can be used to create commercial quality food grade products.

Most organic natural extracts are not well suited for binding into a hard tablet. However, Firmapress Organic overcomes this by using a specially blended and granulated mix of organic ingredients to produce the best binder organically possible.

Firmapress Organic has 5 simple and clean ingredients: organic guar gum, organic gum arabic, organic agave fiber, organic rice fiber, and organic agave syrup. This blend has been carefully crafted to have the best organic binding properties available.

With its being certified organic, Kosher, Halal, and micro-biologically tested, you can feel confident that Firmapress Organic is safe and free from anything that could have long term side effects if consumed.

## Main Benefits of Firmapress Organic

- **Gives a Competitive Edge** - Firmapress Organic is a first-in-class, all-in-one organic binder that allows you to deliver to the customer a fully organic tablet for the first time.
- **Saves Money** - Instead of depending on several suppliers for excipients, Firmapress Organic can be ordered on our website in seconds. It is in stock at all times in LFA's UK, US, and Taiwan offices and can be dispatched same or next working day so production can keep going.
- **Enables Smoother Production** - Proven again and again to work with a large range of products, Firmapress Organic can comprise from as little as 5% to 75% of a total blend.
- **Creates Stronger Tablets** - Most tablet manufacturers are not able to create organic tablet mixes that are able to perform. From organic ingredients such as herbal extracts and spices, Firmapress Organic has been crafted to be a solution to binding problems.

## Specifications

Appearance	Brown powder
Physical state	Solid
Storage	Store in a cool place away from moisture, direct sunlight, and heat.
Directly compressible	Yes
Bulk density	0.45-0.55 g/cm <sup>3</sup>
